BIB RECORDS: MERGING

Two bib records are found and are duplicates of each other; the publisher, the pagination, and the date are all the same. Merging combines the holdings from both bib records. Merging will keep one bib record and remove the other bib record from the database.

This is accomplished with the M (merging) option.

BIB RECORDS: OVERLAYING

To upgrade bib records, the overlay option is used.

The following bib is lacking the 035 field, has an old link, old 9xx info, and only has one ISBN. The cover image is lacking so hopefully if the other ISBN is added it might connect to provide a cover image.

We will overlay with an OCLC record.

520 Summary .. a Geriatric Palliative Care covers a broad spectrum of issues characterizing care near the end of life for older adults, social and cultural context of old age and frailty, this volume details with specific aspects of palliative care relevant to (e.g., cancer, strokes, dementia) as well as individual symptoms (e.g., pain, fatigue, anxiety). Communication between patients, in a variety of settings, is also discussed. The theme of this book is that palliative care is the best approach for chronically ill and frail elderly because of its focus on quality of life, support for functional independence, and the caregiver values and experiences in determining the goals of medical care. Geriatric Palliative Care provides a comprehensive guide for all clinicians who care for older adults.
